USA

Algoes Study Work and Travel LTD is here to help you choose the university in USA, offer continuous consultations and assist you in choosing the right program. USA is a country with unlimited opportunities for studies, internships and also part-time work. While studying you are giving you also the opportunity to discover the glittering lights, the frantic pace of the largest world cities, discover wild nature of sunny beach and lush forest. It is not a surprise that the USA is the country hosting the biggest amount of foreign students. American educational institutions have the best reputation worldwide due to its academic system and their focus on creating tomorrow’s new leaders. American students have an unlimited variety of degrees to choose from with most of the institutions being in the top 100 worldwide adding tremendous value to your degree. American institutions are leaders in research and cooperation with big companies worldwide.

Undergraduate training lasts 4 years in general, but you also choose to spend only a single semester to immerse yourself in the American model. Living in USA while doing your studies can become quite expensive and this is one of the main reasons that sometimes this country might not be a good idea for everybody. Life in campus can come up to 1100 euros per month, including your food, accommodation and transport, your degree will cost between 15000 to 38000 euros per year.

The best cities to choose for your studies are New York, also known as Big Apple, Florida, Los Angeles, Boston and Chicago, place of the legendary basketball player Michael Jordan.

Are you one of the students who would prefer to live in one of the newest countries worldwide? A country that combines technology, fast development, mixed tradition and the wild life you were always dreaming of? Then Australia can provide you with all these together plus a very reputable degree that will boost your professional career once you successfully finish it. Australia has one of the highest living standards worldwide but it is also an expensive country to live in and study. Australian degrees are well appreciated and recognized worldwide offering you great opportunities through their educational system and the mandatory internships to build a successful career in any part of the world.

Australia is one of the destinations you can find landscapes that cannot be anywhere else, wild animals that are the pride of the country such as kangaroos and koalas. It is worth mentioning that friendly and open-minded people will be happy to welcome you in this multicultural society. The best cities to study are the capital of Australia Sydney, Robina within the Great Barrier Reef, Perth with its long, calm, wild beaches and finally Melbourne a beautiful city which combines development and conservation of its natural environment.

Living in a campus typically costs much less than living outside - approximately $750/month, average cost of groceries equals $200/month, $16 to $20 for a meal at a casual diner. In percent you can live with an approximate amount of $1,550/$month or even less. If you use shared house in a considerable distance from the university, student visa offers access to part time work in parallel to your studies assisting you to finance your student's life allowing to earn up to $3350 AUDS per month.

Latvia is probably the least known place and the smallest of the three Baltic countries but it concentrates a large population of young assets as the country is seduced by students’ life. Apart from the academic aspect, Latvia is a country full of natural and architectural wonders which are very typical for Eastern European countries.

The tuition fees and living costs are lower than in the rest of the EU countries so it is a good place for budgeted studies. Universities are well known for providing high quality graduates not only in the field of IT and engineering but also in tourism.

Although this country is often misunderstood it represents many opportunities to discover. You will never regret going there. Latvia is a famous destination for studies among the Russian speaking countries as it offers an EU degree in that language.

Student accommodation costs between 70 and 120 euros and 250 euros for meals estimates show that a student living cost per month in Latvia is between 450 and €700 per month all inclusive (accommodation, food, transportation and leisure).

The famous Latvian capital of Riga is the ideal place to follow a course abroad, you will find there students from all over Europe. Germany, Spain, Sweden, Norway, Russia, Ukraine, also Kazakhstan and Azerbaijan and so on. Cultural diversity of this city it’s impressive and each year attracts more and more students. During your degree you can take advantage of the Erasmus program and follow a semester of your studies abroad or even perform Erasmus practice in another European country.

A small but a great country due to its cultural and historical potential part of the once upon time well-known Austro-Hungarian Empire. Hungary is a perfect destination for your studies abroad if you want to choose something different than the usual. Each year Hungary attracts a considerable number of foreign students for a whole degree or through the Erasmus Exchange program.

A great advantage of studying in Hungary are the languages of studying: English, French, German, Hungarian and sometimes Russian. So in the cost of your degree you may know 3 foreign languages. Most of the universities cooperate with the universities abroad, so you can obtain a joint degree from Hungary and England or USA. You can enter any University without passing such tests as TOEFL or IELTS just depending on your secondary education grades.

Bachelor programs typically last three to four years, master’s programs one or two, and doctorate programs three years. In some subjects, it is also possible to complete a single five or six-year course, which combines the bachelor’s and master’s levels. The cost of life comes up to € 550 per month. Many universities offer dormitory accommodation between 150 and 250 euro per month. For € 5 you will have access to a fast food menu, or even to watch a movie in cinema in your free time. Bachelor degrees cost between 5000 and 8400€ per year and Master Degrees cost from 6000 to 10.000€ per year.

Poland is a striking blend of modernism and history, a vibrant and dynamic area perfect for students to have the full experience out of the ordinary: this country has many beautiful places such as parks, mountains, the Thousand Lakes region and many more. It is one of the most affordable countries to study especially, if you choose a university outside the capital of Warsaw. Many newly built private universities can offer you education you want and which you might even use later as the first step to continue your education later on another level and in another country.

Polish universities are part of the oldest in Europe with the first University founded in the 14th century. This country brings together students from around the world such as Norway, Spain, France, Ukraine, Russia, Greece, USA and Italy. Polish higher education lasts for three years at undergraduate (bachelor’s) level and one and a half or two years at master’s level. In order to apply, you need to provide a proof of having successfully completed the previous level of studies, and proof of English or Polish language proficiency (B1/B2 level) depending on the language the degree is being offered. The degrees cost between 2000-4000 euros per year and the cost of life comes up to 500-700 euros per month depending the city and your accommodation quality.
